

# **IMPAX IXT-59 SOLVENT**

Technical Bulletin #859A

IXT-59 is an aromatic hydrocarbon solvent used for general epoxy clean-up before the epoxy is set. IXT-59 is also used for removing grease, oil and other contaminants from surfaces prior to applying epoxy materials. Tools and equipment used for mixing and applying these epoxy materials should also be cleaned with IXT-59.

Typical Physical Properties:

|              |                              |
|--------------|------------------------------|
| DENSITY:     | 7.66 lb./gal. - (0.9 gr/cc)  |
| FLASH POINT: | 89°F (31.7°C) Tag Closed Cup |
| POUR POINT:  | -139°F (-95°C)               |

## **WARNING**

IXT-59 Solvent causes skin irritation  
on prolonged contact

**FLAMMABLE**  
May cause eye irritation
